

All-season comfort.
For multipurpose spaces.

Now you can enjoy year-round comfort in indoor utility spaces like garages or workshops, with Infratech's Comfort Garage Heater.

INFRATECH
COMFORT

Add more flexibility *to all-purpose spaces.*

Homeowners have long embraced the garage as a multipurpose area for workshops, home gyms, game rooms, home offices or hobby tables. With Infratech's Comfort Garage Heater, you can reclaim this bonus space for projects, fitness or family fun in every season.

Infratech's Comfort Garage Heater is ideal for indoor utility areas like garages or workshops.

- Our best-selling black Contemporary Series (C-Series) 33-inch, 1,500 watt (120 volt/12.5 amps) heater is constructed from cold roll steel with black end covers, and offers clean, efficient performance with modern styling.
- It provides effective spot heating to create a range of indoor bonus spaces, and can be installed to heat a workbench, exercise equipment, desk, gaming area, crafting table, and more.
- Odorless infrared heat is emitted from a quartz element, for year-round comfort with zero emissions.
- It can be mounted to a wall or ceiling using the mounting brackets provided or suspended with chains. At the suggested mounting height of 6'–7', the coverage area is 5' x 5', for more targeted warmth.
- It can be controlled remotely via a smartphone or smart home assistant when installed with a heavy duty smart plug.
- Comes with a 6' cord for easy DIY installation.
