Infratech Controls Simplified

Custom Controls

Universal

- **Zoning, dimming and timer capabilities**
- Perfect for most residential applications
- Smart Dimmer features 2-hour timer
- Adjust heat from 0-100%
- Zone heaters for maximum comfort
- App control via Wi-Fi pairing with the Bond Home App
- **Go-To** for **residential applications** that want the most convenient controls and functionality

Home Management

- Interfaces with most 0-10v home automation or building management
- **Zoning**, **dimming** and **timer capabilities** when integrated with a customer supplied home automation or building management system
- **Go-To** for applications that want the most convenient controls and functionality integrated into their **home automation or building management system**

Solid State

- **Zoning, dimming and timer capabilities**
- Multiple zoning configurations
- Heaters hardwired directly to solid state relays
- Gives commercial properties the ability to maximize comfort for patrons and guest.
- **Go-To** for **restaurants and commercial properties** who want all the features of the Universal Control but in an easier package for all staff to use. **Note: No Wi-Fi capability**

Value Controls

Enhanced Timer (Contactor)

- Great value for residential applications with 1-2 heaters
- Smart Switch features 2-hour timer
- App control via Wi-Fi pairing with the Bond Home App
- Ability to control two heaters independently

OR

- Run heaters at 50% **or** 100% output
- **Go-To** for **residential applications** that are looking for more affordable option than Universal controls, have a smaller project, and do not need full dimmability. **Energy Savings/Peace of Mind/Safety**

Other Value Switches

- Infratech still offers simple value switches
- **No timer**
- **No zoning**
- **Limited dimming**
- **Go-To** for **residential applications** looking for budget friendly options
